

EDGREN HIGH SCHOOL INTERVIEW ACTIVITY

1-3 Shiroto Yuko & 1-3 Kushihiki Sara

First, we will tell about Misawa Base. We discovered various things which were different from Japan and we were surprised.

For example, we found there were many different foods in the restaurant we went. There were sweet tea which was too sweet, very large pudding, big chicken meat and so on.

After that, we went to Edgren High School and interviewed Nina and Daniel. Nina was from Oregon and in

the 11th grade. She had lived in Okinawa, and said it was the favorite place she had ever lived, because there is a big shopping mall. Also she said Japan was a safe country, compared to America. We thought our country was trusted and proud of it.

👉 Our friend's lunch

Daniel was from New Mexico and in the 12th grade. He said he missed his friends who were in New Mexico. And he said “I love Sukiya very much, Sukiya is my life!!” Japanese food was loved by foreigners, so we were pleased.

We learned many things through this interview. For example, we had to use everything we could use to communicate. We wrote letters or pictures down, used a computer and so on. We compensate for our lack of English knowledge with ingenuity. It is important not to be afraid of making mistakes.

By the way, we listened to them while making appropriate responses a lot. When we noticed it, we thought it was funny. They would think that it was funny to see Japanese individuality too. It was a good experience to feel the differences between Japan and America!!
