

## **Exchange Meeting With EDGREN Students**

Creator: Sota Saito / Riko Shiratori

There were a lot of surprising things in this exchange meeting. We will tell about our interesting experience.

### **No.1 FOODS**

We had a lunch in a restaurant in Misawa base. It was Viking form, so we could try many kinds of foods  
American food was generally very big and had a strong taste.  
For example, ice cream was very sweet, cookies' texture was soft, and one of the juices looked like tomato juice.  
American food was delicious! However, we wanted to eat Japanese food.

### **No.2 IN SCHOOL**

We couldn't help being surprised because it smelled sweet everywhere in school!  
The seating arrangement of desks in classes looked the center.

#### **LIBRARY**

The books were fewer than in a Japanese library has but there were many magazines. Computers were also there. It resembled the libraries of Japan very much.

### **No.3 PEOPLE**

They were friendly and mature so we could talk happily. Surprisingly, they talked with each other with no connection to age.

They don't wear uniforms and they said they do not want to wear it.

## **FEELINGS**

Generally, it was freedom about many things. We found that it is important not only to speak English but also to use gestures for communication.

We couldn't catch their words so well, so we want to be able to use English more.

We were really excited. We will never forget this wonderful experience!

## **THANKS to**

Teachers, Ms. Saito, Edgren School students and people involved.
