

United States of America in Aomori

1-1 Watanabe Moe

1-6 Ota Karen

We visited Misawa Airfield to exchange with high school students.

We had a good time there.

Restaurant

At first, the restaurant we went was all-you-can-eat-and-drink.

It had a strong taste and large portions of food.

It was very different from Japan, The amount of a mouthful of chicken was very big.

School

When we entered the school building, we smelled America.

It smelled like strong perfume.

There are a lot of lockers that came out of the movies or dramas.

Seeing them, we were excited.

We held an exchange meeting.

We ask students of Edgren a question about how they spend their Christmas.

They told us that they hold a party with friends and family.

It is different from Japan.

There is different culture in U.S. We had a good chance to learn about another culture. Thank you.
