

# Visit to Edgren High School

Mori Minami and Fujimoto Airi

January 8<sup>th</sup> on Thursday we visited Misawa Base. We could not wait for this day. At first we went on tour of Misawa Base. It was different from Japan on Misawa Base. For example, the traffic rule is different from Japan. I had lunch at a restaurant on the base. There were many kind of foods and it was very delicious. Especially sweets and meat were very delicious but the taste was a little strong. Next we went to Edgren High School. It was amazing for us when we entered there because the smell was different from Japan. The smell was sweet.

We interacted with a girl at first. Her name is Nicole. She is 16 years old, but she looked mature for her age. We talked to her about each country. She said “I have never seen the actual Nebuta festival”. We were surprised. We want her to see Nebuta festival. She said, “In America we play any sports and change these every season.” We heard this for the first time. She does not know too much about Japan.

Next we interacted with a boy. His name is Andrew. He is 14 years old. He said “I play basketball after school.” We asked many questions of him but he did not show interest in our questions. We fully realized that we do not have English ability.

Through this experience we learned some things. It was a very good experience.
